

CE-Declaration of Conformity

According to Pressure Equipment Directive 97/23/EC, Appendix VII
For Parker/Herl valves with the type designations

Valve group Type designation	Nominal diameter	Module B	Module D1	Module D
Globe shut-off and regulating valves T2, T4, T5, T51, T52	32...100		X	
Angle shut-off and regulating valves T6, T61, T62, T11	32...125		X	
Globe shut-off and regulating valves T2, T4, T5	125...400	X		X
Angle shut-off and regulating valves T6, T11	150...400	X		X
Globe check valves T2, T4, T5, T51, T52	32...100		X	
Angle check valves T6, T61, T62, T11	32...125		X	
Globe strainer T2, T4, T5, T51, T52	32...100		X	
Angle strainer T6, T61, T62, T11	32...125		X	
Globe strainer T2, T4, T5	125...300	X		X
Angle strainer T6, T11	150...300	X		X
Changeover valves T25	32...50		X	

The type designations can contain the following letters or combinations of letters that identify material or type:

V	Forged steel/steel casting	-R	Regulating valve
VA	Stainless steel	-R/AV	Regulating valve with soft seal
F oder .F	Flanged bonnet	-RUV	Check valve
.L	Long bonnet	-RUV/AV	Stop/check valve
.SW/FPT	Inlet: socket weld Outlet: FPT threaded connection	/TF	Check valve for liquid
.FPT/SW	Inlet: FPT threaded connection Outlet: socket weld	/TG	Check valve for suction- or compressed gas
.S	Type with special connections with additional number for identification of connections	.FA	Bellows seal
.E	For welding neck ends	.CO2	Valve for CO ₂
		.CO2L	Valve for CO ₂ , type for food use
		.CO2I	Valve for CO ₂ , type for industrial use
		-SS	Strainer

We herewith declare compliance the requirements of the Pressure Equipment Directive, Appendix III, Module B, D1, D by the TÜV Rheinland Industrie Service GmbH with the number 0035 according to the above table.

The harmonized standards specified below have been complied with
EN378; EN13136; EN12284; TRB801 Nr.45

Cologne, November 2011

CE-Declaration of Conformity

According to Pressure Equipment Directive 97/23/EC, Appendix VII For Parker/Herl valves with the type designations

Vale group Type designation	Nominal diameter	Module B	Module D1	Module D
Safety valves / safety overflow valves T21, T21.1, T23	12...50	X		X
Overflow valves T22	32...65		X	

The type designations can contain the following letters or combinations of letters that identify material or type:

V	Forged steel / steel casting	.B/C	Inlet/outlet type
VA	Stainless steel	.C/B	Inlet/outlet type
.FA	Bellows	.D/B	Inlet/outlet type
F oder .F	Inlet/outlet connection (flange)	MPT	Inlet/outlet type threaded connections
.B/B	Inlet/outlet type		

We herewith declare compliance the requirements of the Pressure Equipment Directive, Appendix III, Module B, D1, D by the TÜV Rheinland Industrie Service GmbH with the number 0035 according to the above table.

According to Pressure Equipment Directive 97/23/EC, Appendix VII For Parker / R/S valves with the type designations

Valve group	Type designation	Nominal diameter	Module A1**	Module B**	Module D**
Strainer	RSF	32...100	X		
Check valves	CK1, CK4A	32...100	X	X	
Gas powered valves	CK2, CK5, CK6	32...100	X		
Solenoid valves	S4A, S5A	32...100	X		
Relief regulator	A2CK	15...20		X	X
Pressure Regulator	A4A, A81, A82	32...100	X		
Liquid level switches	LLSS	25		X	X

The type designations can contain the following letters or combinations of letters that identify material or type:

S	With pilot solenoid valves for shut-off	K	Reseating relief
B	With pilot solenoid valves for wide opening	O	Outlet pressure regulator
E	With external compensation	L	Differential pressure regulator
D	For dual pressure control	T	Temperature compensated pressure regulator
P	Pneumatically compensated	Z	Connection for additional pilots

We herewith declare compliance the requirements of the Pressure Equipment Directive, Appendix III, Module B, D1, D by the TÜV Rheinland Industrie Service GmbH with the number 0035 according to the above table.

The harmonized standards specified below have been complied with
EN378; EN13136; EN12284; TRB801 Nr.45
